

Dog Walking

Although dogs can be rewarding pets they can be very demanding- they need companionship and regular exercise. It is recommended that dogs should be left no longer than 4-6 hours a day and most households work full time leaving their pets for much longer than this, They become bored and may develop behaviour problems such as barking, digging and chewing at items in the household, Mucky paws Dog walking and pet care resolves this problem by walking your dog in the day, feeding and watering them or even just giving them a little TLC while you are unable to due to work commitments, health, or any other reason.

We will pick your dog up in our dog friendly fully insured van and take them for a stimulating walk and play with a small group of dogs in a safe secure environment. Your dog will then be returned home safely with clean paws and ready for a sleep. We will leave you an "End of walk sheet " Informing you how about your dogs walk. If you prefer your dog to be walked alone we can arrange this to meet your pets individual needs.

Dog walks are from 9am to 4pm and will last between 45mins to 1 hour depending on each dog's needs/weather. All dogs poop is scooped up, bags provided by us.

If you require your dog to be let off their leads we will ask that you sign an "off lead" permission slip.

Safety is the most important thing therefore it is important that your dog shows no aggression towards any other dog or person and is social and pleasant.

The walks will vary so your dog does not become fed up and unhappy.

If your dog needs walking every day we will ask to keep hold of a set of house keys which will be kept in a safe with no identification of yours on it and will be recognised by a code only.

Puppy Care

Puppies need a lot of attention and care; they need to be introduced to new experiences as early as possible such as noises, different people and dogs. A puppy needs regular and adequate meals and regular exercise in a safe place. Playing with puppies using toys and getting them out and about to see the world and meet new people as much as possible from day one will help to build their confidence and relationships. I know how hectic life can be and due to other commitments you just don't have time to do this throughout the day.

Mucky paws will visit your puppy giving them a toilet break, little walk, feed, a cuddle, basic training, and whatever requirements you may have.

We will clean up all 'little accidents', can visit in the morning and/or afternoon, and help you to maintain the finest care and attention.

All puppy visits include: -

- Toilet Breaks
- Fresh food and water
- Short walks in safe place (upon request)
- Playtime, exercise and cuddles
- Basic training to build upon behaviour
- Daily information to communicate your puppy's development and behaviour
- Clean up of any accidents

Cat Care

Cats like companionship either with other cats or people for at least part of the day and rely on their owners for food and care, it is known that cats are most comfortable in their own familiar environment, If like me you don't like leaving your pets in unfamiliar surroundings then get in touch with me and let me take care of your cat in their own home.

We will feed, water and clean out litter trays as well as provide lots of TLC for your cat making sure they are snug and happy while you are away. I recommended 1-2 visits per day.

We can also make your house look lived in while your away by taking in mail, opening, closing curtains, putting bins out, leaving lights on anything to make it look like you are home.

We also offer a ["texting" service](#) while you are away. We will send you a text at the end of the day telling you how your pet is and what they have been up to. Please see price list for this option.

Dog Sitting

Having owned Dogs all our lives, we understand how heartbreaking it is when we have to leave them behind when we go away. We always struggled finding someone to mind our dog Biff and even resorted asking family to come down from Scotland to mind him so we knew he would be happy in his own home.

Here at Mucky pups dog walking and pet care we offer a dog sitting service, this means your dog will not have to leave the comfort of their own home, we will come to your house whilst you are away and look after your dog making sure they are happy and content. We will visit your dog throughout the day walking, feeding and playing with them. We understand that each dog is different and they all have individual needs which we aim to cater for to the highest standard making sure they have consistent care at all times whilst you are away. We will also open and close your curtains bring post in and put lights on to make your home look lived in.

We ask all customers to fill in a short introductory form to inform us about your dog and give full instructions of what exactly you would like us to do, as every dogs needs are different we will quote you with a price depending on your requirements.

Dog Sitting

Our dog sitting is personalised to **YOUR** own special requirements, we do not have a set price as some people require more than others. If you are interested in this service please do not hesitate to [get in touch](#) with me for a chat or quote!

Texting Service

We understand how hard it is having to leave your pets whilst you go away; therefore we offer a texting service where we will text you whilst you are away letting you know how your pet is getting on. This will help to reassure you that your pet is safe and happy at home.
